as Essential as Water

From Sao Paulo to Shanghai, access to electronic payment is essential. Introducing AQUA makes it affordable for even the smallest business with less than one transaction a day. As water is vital to your body, AQUA is vital to your business.

- > **Performance is affordable.** Aqua, the most affordable payment terminal which enables magnetic stripe and EMV transactions, is also a high performing space-saving countertop that features one of the smallest footprints in the market.
- > **When entry level means TOP quality.** Relying on Ingenico experience, AQUA performs fast and secure transactions utilizing Ingenico's unique secured UNICAPT 32 Platform with PCI PED certified design and powerful 60 MHz processor.
- > **Accessible to all.** Easy to set-up and easy to use, AQUA provides equal access to payment for everyone. Its universal design complies with the most demanding international standards.
- > **Reliability as a MUST.** As good as it gets, AQUA has been designed and tested following Ingenico's proven processes to ensure full reliability. AQUA remains operational even in the case of a black-out, thanks to the back-up battery.

Memory

- 2Mb PSRAM and up to 8Mb Flash

Processor

- ARM 32 bits @ 60 MHz

SAMs

- 1 SAM slot

Security

- Integrated PIN-pad
- PCI-PED on-line/off-line

Communication

- Synchronous and asynchronous modems: V22bis/V29/V34

Battery

- Re-chargeable battery (AQ55 model only)

Printer

- Thermal, easy loading, up to 12 lines/second
- Paper end detection, full graphics printing

Display

- Graphic, 128 x 64 pixels. Backlit

Keypad

- 15 keys including shift function key

Magnetic card reader

- ISO 1/2/3

Smart card reader

- EMV level 1
- ISO 7816 1-2-3
- Async/Sync. T=0 & T=1

Connectivity

- 1RS232

Environment

- Operating temperature: +5°C to +40°C (41F to 104F)
- Storage temperature: -20°C to +70°C (-2F to 158F)

Dimensions

- 227 x 97 x 80 mm (8.9 x 3.8 x 3.4 in.)

Weight

- without battery: 465gr (1Lb.)
- with battery: 520gr (1.15Lb.)
